## TRACKWORK BREAKFAST MORNING

*I would like to start off with a big thank you to all those who managed to drag themselves out of bed in the early hours of the morning and join us for the trackwork breakfast held on the 13th June. We had close to 70 people attend which was really impressive. I think using the Marton and Feilding Rooms in the main function centre worked well and gave everyone a better view of what was happening on the track. It was great to put faces to the names of many owners that I had not yet meet in person and also for syndicate members to meet others in their syndicates. For those that could not make it I will host another one later in the year.*

# PARISIAN POPPY

Parisian Poppy stepped out at the Otaki Trials on Wednesday 17th June in less than favorable conditions. The track was heavy with consistent rain through out the day. She was in a 800 metre heat and spent a considerable amount of time standing in the gates while waiting for the rest of the field to load. She was not deterred by this at all and went on to finish third in behind two more seasoned horses having their second trials this time in. Rosie Myers rode her and said that she was not 100% happy in the heavy track conditions but her willingness and honesty got her through it. Rosie was really happy with the way she behaved on the day even though she was a bit busy in the birdcage once she was out there doing it she was a true professional that just wants to get on with the job. Mike will be looking for a race for her in the coming weeks with the 800 mtr 2 year old race at Whanganui a strong possibility. This is one filly that really enjoys her work and will be giving it her all on raceday!

# PRIDE OF DUBAI X VALHALLA WEDDING

The Pride of Dubai x Valhalla Wedding 2 year old gelding really impressed at the Otaki trials. He was ridden by Rosie Myers on the heavy track over 800 mtrs. He is still a bit green and missed the start by about three lengths but recovered well to finish in a handy 3rd place. Rosie said he was still a little shy of the horses around him and was running in nearing the winning post into the worst of the track but was doing it really easy at the line and will take a heap of improvement from the trial. This boy is definitely showing plenty of ability and will be going on to have a very bright future, one to follow going forward! We still have a few shares available in him so if you are interested please do not hesitate to get in touch as he will be racing soon.

## COLORADO STAR

Colorado Star aka Fluffy was another one to step out at the Otaki trials. He was just given a quiet run around and left to just finish it off under his own steam. Leah Hemi was onboard and reported that he felt really well and would take a lot of improvement from this run. He only finished around mid field and wasn't asked for an effort as the track conditions were very wet and we did not want to knock him around this early in his preparation. This time in he will be aimed at giving the Couplands Bakery Mile a crack, he has shown plenty of ability and deserves a go at a big race, we feel he will be more than competitive.

# KHALFANI

Khalfani trialed up really well at Otaki trials, she handled the wet track with ease. Sam O'Malley rode her on the day and he is currently walking around 62 kgs so she was carrying a lot more weight than the others in her heat. Sam was really pleased with her he said she didn't show any of her quirky (wayward) behavior that she was known for in the past. She jumped out well and finished in third place and felt great in the heavy track conditions. She had a really good blow afterwards so this trial will bring her on a lot. We are all looking forward to her stepping out on race day and showing us the ability we know that she has. The enforced break has probably been a blessing for this horse as it has given her the time to mature both mentally and physically.

# TAVISTOCK X ZAMBEZI FILLY

The Tavistock x Zambezi 2 year old filly arrived at the track around three weeks ago from having her breaking in and pre-training finished off by Gareth and Shari Baird at Milton Park Stables located in Bulls. They have done a great job with her and she is now working really well and full of confidence at the track. She had her first little run along this week and has walked through the starting gates this morning with another 2 year old. She will gradually be taught to be shut into the gates and once we are happy with how she is coping in these we will take her to the jumpouts to further her education.

Her half brother is trained by Chris Waller and he holds him in high regard and whatever they both do on the racecourse can only increase her value going forward. At the time of writing this newsletter I have 5% remaining in her please contact me if you are interested.

## VORALTO

Voralto has had an extended break out at Goodwood Stud after pulling up sore in behind following her last start where she was less than impressive. Dr Tim Pearce examined her after her run and found her to be sore over her back end and thought she may have pulled her sacroiliac muscle. This is not uncommon in racehorses and often happens when jumping out the starting gates. She will be coming back into work around July 1st and will look to be back racing middle to end of September. This will be a defining preparation as she has showed us some ability as a younger horse and when she is sound she has impressed her riders but unfortunately she has not had a preparation without any hick ups or injury's and so far has not put her hand up on raceday. I do think as long as she is sound we will see a big improvement from her and will be enjoying a few wins along the way.
